Energy Pledge for Facilities Management Operations and Maintenance

At **Facilities Management Operations and Maintenance (FM O&M)** in **King Abdullah University of Science and Technology**, we strive to reduce our Campus energy consumption, costs and promote the long-term sustainability of our operations. This is a declaration from FM O&M Director to all FM O&M staff

We are committed to:

- Implement an Energy Management System to provide a structured and systematic business process leading to continual improvement in our energy performance
- Reduce FM O&M energy consumption, in order to meet the following objectives:
 - 10% reduction in Energy consumption from 2015 benchmark
 - Target to be achieved by 2025 or earlier
- Deploy information and resources to achieve the above objective.
- With coordination between KAUST PDE&C & FM O&M, we will consider energy performance improvements in the design, operation, maintenance and modification of our facilities and equipment
- Include energy efficiency as an important priority within our procurement processes.
- Encourage all members, staff, customers and end-users to support our energy improvement initiative and come up with innovative awareness campaigns and activities to encourage changes in behavior and ideas for improvements

The FM O&M Operations Manager will be responsible for the accomplishment of such objectives, and will subsequently appoint the relevant team members to establish this Energy Management System and associated activities.
